

## 2010 Anesthesia Business Update

Advisory Law Groups 2010 Anesthesia Business Update by Mark F. Weiss, J.D. Change. Everyone talks about it. But few take the time to strategize, or even merely to plan, for their groups future, and therein lies your opportunity. The great majority of anesthesia groups merely are; they consider themselves at the mercy of a hospital and of Medicare, Medicaid and commercial payors. Few groups plan even six months to a year into their future, planning being an incremental process, building on the present situation. But the top echelon of groups take the time and make the effort to strategize for their long term success, strategy being the creation of an envisioned, long term future which then serves as a magnet for transformational growth and success. The 2010 Anesthesia Business Update explores five major themes related to developing and refining your groups strategy: We'll take a look at some of the major trends, both positive and negative, that are rocking the anesthesia world. We'll discuss the success laws of managed care contracting. As this book goes to print, Congress continues to debate so called healthcare reform legislation - we'll discuss the steps that you need to take to thrive past whatever Obama-strosity emerges from the process. We'll discuss a stipend negotiation error that groups commonly make - confusing the fair market value process for an actual stipend negotiation strategy. And, last but by no means least, we'll discuss the issue of group culture: what it is, how it can be changed and what those changes mean to your success. Some fool themselves that change will bring a return to an idealized past. They will be sadly mistaken. Others understand that change is a central feature of our economic system, what economist Joseph Schumpeter called the cycle of creative destruction. I urge you to strategize for your own future, to make your own change and to profit from it.

Those that fail to heed this advice will be left only with change, in every meaning of the word.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22\_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22\_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122\_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122\_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no

conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
