

The Biggest Fraud in History: Why You'll Always Be Poor

Your true wealth is your time and freedom, money is just a tool for trading your time. It's a container to store your economic energy until you're ready to deploy it, but the whole world has been turned away from real money and has been fooled into using currency, a deceitful imposter that is silently stealing your two most valuable assets: your time and your freedom. Welcome to the rabbit hole. We are entering a period of financial crisis that is the greatest the world has ever known. The wealth transfer that will take place during this decade, is the greatest wealth transfer in history. Wealth is never destroyed, it is merely transferred, and that means that on the opposite side of every crisis there is an opportunity. The great news is that all you have to do is to turn this crisis into your great opportunity, is to educate yourself. I believe that the best investment that you can make in your lifetime is your own education, education on the history of money, education on finance, education on how the global economy works, education on how all of these guys, the central bankers, the stock market; how they can cheat you, how they can scam you. If you learn what is going on and how the financial world works, you can put yourself on the correct side of this wealth transfer. Winston Churchill once said that the further you look into the past, the further you can see into the future, this program is all about creating your own crystal ball, being able to gaze into the future, being able to change this crisis, the greatest crisis in the history of mankind, into your great opportunity. The hidden secrets of money, some of them are hidden in plain sight, they're like right in front of you. The way the monetary system works is actually something that isn't actually hidden away from all of us, it's out in the open but it's complex and people just don't see how it works, it's hard for them to imagine that we were just living in such a hoax. Others are

meant to be secret but the truth is slowly coming out, like the Federal Reserve being a private corporation and not really part of the us government. but when I started studying this, what I found was that there was no place that I could point people to where they could get it all in one spot, so I basically decided to write my book about it and consolidate monetary history, economics, the markets, fundamentals of gold and silver. Theres a lot of smoke and mirrors in economics and I sort of made it my job to lift the fog for people.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no

conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
