

Faiths on Display: Religion, Tourism, and the Chinese State

By providing a unique perspective on China's changing relationship with religion, this groundbreaking book explores the role the Chinese state continues to play in religious revival today. Over the past several decades, China has experienced a rapid expansion of religious spaces and activities. More recently, a growing middle-class urban society has fueled an upsurge in Chinese domestic tourism. *Faiths on Display* challenges the common separation of religious and tourist activities, showing how these practices overlap and blend together. A group of leading scholars explores the unlikely interaction between these exuberant phenomena, finding a surprisingly clear lens through which to view a rapidly transforming society. Even the most casual observer is struck by the Chinese rediscovery of traditional culture, particularly at revived religious festivals and pilgrimages in suburbs, rural areas, and at China's margins where religious practices of ethnic minorities attract particular tourist attention. A set of fascinating case studies shows how state organizations are helping revive sacred spaces as exploitable sites for tourism development and revenue generation. While this may appear to be a straightforward collision of Chinese tradition with modernization, the contributors argue that the results of combining religion and tourism offer important insights not only into the practice of religion and the rise of leisure culture in contemporary China, but also into the changing and contested nature of state governance. The policies of an authoritarian, modernizing state obviously influence both religion and tourism, but religious practices, the book clearly illustrates, tend to slip out of state control, and tourist tastes push development into directions not anticipated or welcomed by the state. Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no

conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
