

Over a Barrel: Breaking Oils Grip On Our Future

The Crude Truth: Do you want to know why you're paying so much at the pump these days? Raymond J. Learsy, a longtime commodities trader, explains the real facts behind today's outrageous gasoline prices by lifting the veil from the Mideast oil cartel. He shows how OPEC manipulates the oil markets with results that are destabilizing to the world's economy and threatening to America's national security. With refreshing candor and an insider's perspective, Learsy explains how OPEC: - promotes a bogus perception of oil scarcity in order to hike prices and gain political power. - is compromised by connections to Islamist terrorists, who fuel anti-American hatred with dollars from our own pockets. - keeps Third World populations in crushing poverty, despite rich oil deposits found in their countries. - became the de facto master of Iraq's newly liberated oil fields. Along with a sweeping survey of OPEC's methods of economic domination, *Over a Barrel* offers a well-informed strategy for busting the Mideast oil cartel and charting our nation's course towards energy independence.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
