

## Services Sector in India: Recent Policy Initiatives

Since the early 1990s, the growth process in India has been marked by a remarkable performance by the services sector. The experience of developed countries suggests that growth in the services sector followed the growth of the industrial sector. However, India's experience in this regard is somewhat different. The sectoral shift in favor of the services sector over the last two decades has taken place in the face of an almost stagnant share of industry and a reduced share of agriculture in GDP. In fact, it was the growth performance of the services sector during the 1990s which sustained the overall growth of the Indian economy, particularly in times of adverse agricultural shocks and industrial slowdown. India is now an important venue for many tasks in services such as financial accounting, call centers, processing insurance claims, and medical transcription. The future potential of growth in these areas appears to be considerable. This book explains recent policy measures by the government of India to make India's services sector internationally competitive. The book focuses on financial services, information technology services, retail trading services, healthcare services, insurance services, educational services, transportation services, communication services, and tourism. Additionally, it includes a chapter on the taxation of services in India.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22\_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
