

Female Power and Male Dominance: On the Origins of Sexual Inequality

In this book, Professor Peggy Sanday provides a ground-breaking examination of power and dominance in male-female relationships. How does the culturally approved interaction between the sexes originate? Why are women viewed as a necessary part of political, economic, and religious affairs in some societies but not in others? Why do some societies clothe the sacred symbols of creative power in the guise of one sex and not of the other? Professor Sanday offers solutions to these cultural puzzles by using cross-cultural research on over 150 tribal societies. She systematically establishes the full range of variation in male and female power roles and then suggests a theoretical framework for explaining this variation. Rejecting the argument of universal female subordination, Professor Sanday argues that male dominance is not inherent in human relations but is a solution to various kinds of cultural strain. Those who are thought to embody, be in touch with, or control the creative forces of nature are perceived as powerful. In isolating the behavioural and symbolic mechanisms which institute male dominance, professor Sanday shows that a peoples secular power roles are partly derived from ancient concepts of power, as exemplified by their origin myths. Power and dominance are further determined by a peoples adaptation to their environment, social conflict, and emotional stress. This is illustrated through case studies of the effects of European colonialism, migration, and food stress, and supported by numerous statistical associations between sexual inequity and various cultural stresses.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
