

The Economic History of China, with Special Reference to Agriculture

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921. Excerpt: ... CHAPTER IX Sung Dynasty, 960-1276 A. D. I. Sung Dynasty, in general Reference: Written Dialogues at the Dreaming Brooks (Mon Chi Be Tan). Adoption of mud fertilization. Historical records-- with one load of water from the King River (Shensi) and with several do of mud from the river side, the fertilization and irrigation are applied to raise up our rice fields and millet. Reference: Yeh Tsing Chen, Pity on Farmers (a poem). The fields are full of hollow ears, and there is no good harvest. Reference: Liu Ping (active 1041-1048). There was no harvest last year; and the wheat crop results in famine also this year.... The plains in the country are just as red as jer (red color), and of the whole planting of the rice crop nothing is left. Whether it is crop or weeds, it is impossible to tell, and all over the four sides there grow all kinds of weeds. Reference: Wu Ta Chung (1068-), Normally Constant Granary. In this report to the emperor Wu Ta Chung tells of the luxury of the period among the rich, as the eating of meat, the wearing of silks and embroideries and riding in carriages, etc. He blames the bad conditions to this extravagance, in a similar vein to the complaints found in ancient Rome. 263 263 Reference: Liang Tao (1068). Urging the relief of conditions, Liang Tao reports to the emperor that the people have been exhausted for a long time and yet the years are poor again and again. Reference: Shang Kwan Twain, Petition for the Restoration of the Charity Granary. The Charity Granary System was adopted by Emperor Wenti of Sui Dynasty and also by Emperor Tai Chung of Tang (second emperor of Tang). In the tenth year of Emperor Sun Chung (Wong An Shihs period) the

government began to consider the old system of the Sui and Tang Dynasties and restored...

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no

conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen.
