

# Instruments in Art and Science: On the Architectonics of Cultural Boundaries in the 17th Century (Theatrum Scientiarum: English Edition)

This volume presents a collection of original papers at the intersection of philosophy, the history of science, cultural and theatrical studies. Based on a series of case studies on the 17th century, it contributes to an understanding of the role played by instruments at the interface of science and art. The papers pursue the hypothesis that the development and construction of instruments make a substantive contribution to the opening of new fields of knowledge, the development of new cultural practices, but also to the delineation of particular genres, methods, and disciplines. This perspective leads the authors to reflect anew on what actually defines an instrument and to develop a series of basic questions to determine what an instrument is - which actions does the instrument incorporate? which actions does the instrument make possible? - when do the objects of examination themselves become instruments? what skills are required to use an instrument, which skills does it produce? With its combination of new theoretical models and historical case studies, its detailed demonstration of the mutual influence of art and science with the instrument as the point of intersection, this volume enters new territory. It is of great value for all those interested in the history of our perception of instruments. Besides the editors, the authors of the papers are: Jorg Jochen Berns, Olaf Breidbach, Georges Didi-Huberman, Peter Galison, Sybille Kramer, Dieter Mersch, Hans-Jorg Rheinberger, Wilhelm Schmidt-Biggemann, and Otto Sibum.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22\_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra

segunda cima del día.

2017-01-22\_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122\_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122\_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
