

Functional food: health care or profitable business?: Secondary Research - Complex Desk Research

Seminar paper from the year 2009 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 2.0, University of Applied Sciences Berlin, course: Master of Business Administration, language: English, abstract: Nowadays, the process of aging is becoming more and more unpopular. The market is full of remedies against the signs of aging, some of dubitable worth. In a more scientific approach, anti-aging researchers have examined the effects of nutrients on pathologic metabolism. After the first discoveries of significant effects, the impact of this new discipline was extraordinary. Researchers and the pharmaceutical industry as well as nutritional and retail companies enthusiastically started to develop frameworks to combine clinical expertise with the new concept of private health prevention. In the late 1980s, the term functional food was coined in Japan. High customer acceptance from the beginning has brought on an expansion of the functional food market segment from the early 1990s on, rendering the market more and more competitive. For competing enterprises, identifying the determining factors of customer acceptance is therefore of great importance. [...]

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de

Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
