

INVENTORY MANAGEMENT AND PURCHASING: TALES AND TECHNIQUES FROM THE AUTOMOTIVE AFTERMARKET

This book is a practical guide to inventory management for wholesale distributors and stores that supply hardgoods. It deals with merchandise classification and selection, forecasting, safety stocks, replenishment purchasing, promotions, forward buying, stock adjustments, and supply chain topics. It includes many formulas and over 50 tables and charts that cover all areas of inventory management. Industry data and examples from the author's auto parts distribution company and other automotive aftermarket firms illustrate each topic. Many of the formulas are from IBM, JDA, and other inventory management software packages, and are reprinted with their permission. All of these techniques were used to manage inventories in the author's company for more than 20 years. The automotive aftermarket deals with hundreds of thousands of different items and a very high service level requirement, so these techniques should cover a wide range of hard goods distribution. The book also has many anecdotes and case histories to illustrate the key points. It offers a valuable blend of strong, proven mathematical techniques and real life examples and experiences.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo. 2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
