

Losing Trader, Winning Trader!: An experiential piece in the Stock Market trading!

There is this general belief or notion by most, that to trade or invest in the market or to get involved, you need a lot of money, a higher education, a connection to a broker dealer, an expensive seminar in the market, or a colleague/broker/mentor who will guide/manage your trading/investing money for a fee. That is the most common belief, that's why most are scared/afraid and just ignore the market. But there are exceptions, but I won't get into that. But I think this is one of the exceptions, I bet! The contents herein are based from recollections, experiences, frustrations (of course), failures, preparations and plans for the future, and also some hard lessons. It's all up to whoever might (accidentally/intentionally) be of interest to read this material if it is valuable, relevant, a rehash, a trash, or whatever you may call it, you be the judge. But I'm sure the equivalent amount you will subscribe this to Kindle is worth than that of a Big Mac. At least this piece you will get ideas or get entertained, but from Big Mac, you need more dosage of Lipitor. The purpose of this entertainment piece is purely for comparison, seeking some answers, finding ways or solutions, exposing hidden truths (if there are?), acquiring ideas, or things that are not disseminated to the masses, intended for the would-be traders who don't have much capital, no access to expensive seminars, not much information how to do trading on your own without using any (or much) money. Only the time and effort, plus of course commitment and the willingness to do hard work.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen.
