

Master Handbook of Acoustics

Practical Instruction on the Art and Science of Acoustic Design and Architecture Build your own acoustic environments such as recording studios, control rooms, and home listening rooms with expert insights from two engineering professionals. Fully expanded to cover the latest methods and software tools, Master Handbook of Acoustics, Fifth Edition presents clear explanations of acoustic phenomena and provides a hands-on approach to room design. Learn how to perform acoustic measurements, choose room dimensions, assign speaker placement, analyze response curves, and design and install sound absorbers and diffusers. You will also find details on how to fine-tune room reverberation, minimize external noise, and apply psychoacoustic concepts. Master Handbook of Acoustics, Fifth Edition explains how to: Determine how sound propagates in open and enclosed spaces Measure sound-pressure levels and work with decibels Analyze the characteristics of room modal resonances Treat rooms for optimal early reflections, reverberation, and diffusion Minimize acoustic distortion, comb-filter effects, and HVAC interference Construct high-quality stereo and surround-sound listening rooms Design personal and professional recording studios and control rooms Understand the acoustics of auditoriums and concert halls Optimize room designs using measurement, modeling, and auralization software

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
