Dive into the fascinating world of dolphins and porpoises, and learn about some of the most beautiful and intriguing animals on earth. Filled with more than 100 full-color photographs, almost all taken in the wild, this informative introduction is organized in an easy-to-read question-and-answer format. Find out where dolphins live, what their bodies are like, how their senses meet the demands of life in the sea, what and how they eat, the way they reproduce and care for their young, how they protect themselves, and their relationships with people. Meet the whole family of dolphin species from the well-known Bottlenose Dolphin (made popular by the Flipper television show and film) to the extremely rare Vaquita porpoise, which only grows to an average of 4 1/2 feet long. Discover amazing facts such as that the Killer Whale is actually a dolphin, that dolphins and porpoises first swam in the seas around 12 million years ago, that they swallow their food whole, and that they use their own language to talk to each other. Learn also about how peoples actions are endangering the worlds dolphin population and find out what can be done to protect these intelligent and graceful creatures. 80 pages (all in color), 8 1/2 x 8 1/2. Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22\_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22\_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122\_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122\_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
