

Psychology of the Unconscious: A Study of the Transformations and Symbolisms of the Libido.

This book became a landmark, set up on the spot where two ways divided. Because of its imperfections and its incompleteness it laid down the program to be followed for the next few decades of my life. Thus wrote C. G. Jung about his most famous and influential work, the one that marked the beginning of his divergence from the psychoanalytic school of Freud. In this book Jung explores the fantasy system of Frank Miller, the young American woman whose account of her poetic and vivid mental images helped lead him to his redefinition of libido while encouraging his explorations in mythology. Published in 1912 as *Wandlungen und Symbole der Libido*, this is a key text for the study of the formation of Jungs ideas and for understanding his personal and psychological condition during this crucial time. Millers fantasies, with their mythological implications, supported Jungs notion that libido is not primarily sexual energy, as Freud had described it, but rather psychic energy in general, which springs from the unconscious and appears in consciousness as symbols. Jung shows how libido organizes itself as a metaphorical hero, who first battles for deliverance from the mother, the symbol of the unconscious, in order to become conscious, then returns to the unconscious for renewal. Jungs analytical commentary on these fantasies is a complex study of symbolic parallels derived from mythology, religion, ethnology, art, literature, and psychiatry, and foreshadows his fundamental concept of the collective unconscious and its contents, the archetypes.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
