

Revealed Biodiversity: An Economic History of the Human Impact

Revealed Biodiversity: An Economic History of the Human Impact aims to show that for several centuries environmental conditions have been substantially the product of economic fluctuations. It contests the notion of perpetual decline in species composition. The arguments are supported by far more precise historical detail than is usual in books about ecology. The need to take the gains to human society into account when assessing environmental change is strongly emphasized. The book features case studies including England, the Netherlands, USA, East Asia, Brazil, and the areas of modern agricultural land grab. This book is important for its close attention to the documented historical record of environmental change in several countries over several centuries; for its demonstration of how much wildlife populations have been influenced by fluctuations in market activity; for revealing the need to be sensitive to historical baselines; and for emphasizing the imperative of taking the gains to human society into account when assessing environmental change. It, therefore, has considerable significance for environmental and conservation policies as well as for future studies in ecological history. Readership: Students, academics (including economic/environmental historians, ecologists, historical geographers) or general readers interested in environmental history or economic history.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
