Silent Partners restores women to their place in the story of Englands Financial Revolution. Women were active participants in Londons first stock market beginning in the 1690s and continuing through the eighteenth century. Whether playing the state lottery, investing in government funds for retirement, or speculating in company stocks, women regularly comprised between a fifth and a third of public investors. These female investors ranged from London servants to middling tradeswomen, up to provincial gentlewomen and peeresses of the realm. Amy Froide finds that there was no single female investor type, rather some women ran risks and speculated in stocks while others sought out low-risk, low-return options for their retirement years. Not only did women invest for themselves, their financial knowledge and ability meant that family members often relied on wives, sisters, and aunts to act as their investing agents. Moreover, womens investing not only benefitted themselves and their families, it also aided the nation. Womens capital was a critical component of Britains rise to economic, military, and colonial dominance in the eighteenth century. Focusing on the period between 1690 and 1750, and utilizing womens account books and financial correspondence, as well as the records of joint stock companies, the Bank of England, and the Exchequer, Silent Partners provides the first comprehensive overview of the significant role women played in the birth of financial capitalism in Britain.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra

segunda cima del día.

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
