

## Smarter Execution: Seven steps to getting results

Two strategic initiatives out of three fail. They are actually a huge challenge for more-of-the-same, better-and-better, companies. Indeed, their cross-organization scope violates all principles of silo efficiency. Strategic initiatives are precisely not more of the same. Smarter Execution identifies seven key steps that managers need to get to grips with if they are to reap the full benefits of their strategic initiatives: - Focus first - less is more - Pick the best possible team - dont compromise - Set the course - learn to navigate to a destination that is not yet fully defined - Set up to win - there is no commitment switch: it starts with you - Think it through - rehearse mentally each next step, leaving no stone unturned - Get all aboard - its about getting people to change the way they work - Follow through - to learn on the go The authors, Xavier Gilbert, Bettina Buchel, and Rhoda Davidson, have been working with several hundred executives to help them execute their strategic initiatives. Time and again, they have seen how these seemingly common-sense insights were actually unexpectedly difficult to apply in most efficient organizations

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22\_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22\_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122\_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
