

Sparky: The Worlds Most Lovable and Mischievous Bear Cub

It is springtime in the Khutzeymateen Valley of northern British Columbia and the rainforest has again come alive after a long winters nap. A new addition to the valley is Sparky, a frisky mischievous grizzly bear cub eager to explore the world the bears call Waipo. During Sparkys first summer there is much to learn; not only from his mother, but also from the other creatures of the forest and from nature itself. Sparky: The Worlds Most Lovable and Mischievous Bear Cub takes the reader on an intriguing journey into the lives of the elusive grizzly bear, as seen through the eyes of a first-year cub. This novel is based upon factual information and stories recorded by the author over a ten year period of studying and photographing the Khutzeymateen Valley grizzly bears. This remarkable harborage is home to hundreds of species of flora and fauna, including approximately sixty grizzly bears. Shymanski has delicately woven her observations into a playful, heartwarming story to delight all ages. Sparky: The Worlds Most Lovable and Mischievous Bear Cub is a beautiful, magical tale of the mystical Khutzeymateen Valley and the grizzly bears, who, if they could speak, might have told the story themselves.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
