

The Baby Business: How Money, Science, and Politics Drive the Commerce of Conception

Despite legislation that claims to prohibit it, there is a thriving market for babies spreading across the globe. Fueled by rapid advances in reproductive medicine and the desperate desires of millions of would-be parents, the acquisition of children—whether through donated eggs, rented wombs, or cross-border adoption—has become a multibillion dollar industry that has left science, law, ethics, and commerce deeply at odds. In *The Baby Business*, Debora Spar argues that it is time to acknowledge the commercial truth about reproduction and to establish a standard that governs its transactions. In this fascinating behind-the-scenes account, she combines pioneering research and interviews with the industry's top reproductive scientists and trailblazers to provide a first glimpse at how the industry works: who the baby-makers are, who makes money, how prices are set, and what defines the clientele. Fascinating stories illustrate the inner workings of market segments—including stem cell research, surrogacy, egg swapping, designer babies, adoption, and human cloning—as Spar explores the moral and legal challenges that industry players must address. The first purely commercial look at an industry that deals in humanity's most intimate issues, this book challenges us to consider the financial promise and ethical perils we'll face as the baby business moves inevitably forward.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende

tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
