

ERP: The Executive Guide to Implementing Accounting Software: Over 100 Ways to Ensure the Success of Your Project

There is one common denominator that defines organizations that are able to successfully implement a new ERP or accounting software package - they take ownership of the new software. Many things are included in taking ownership of the software, and they are presented here as simple and concise recommendations that you can follow as you navigate through your own implementation project. Overall, taking ownership means realizing that your organization is responsible for managing the implementation project and ensuring that the software will meet the current and future needs of the organization. This guide is for anyone who is currently in the midst of an ERP or accounting software implementation or who is considering purchasing such a package. Executives, consultants, accountants, and others will benefit from this guide by applying the best practices and recommendations presented to their existing projects and implementations. This guide provides executive-level guidance throughout all phases of the implementation project. It will help ensure the success of any accounting software implementation by providing specific practical steps that you can take as you progress through the project. For years, many types of organizations have applied the concepts in this guide to successfully implement new ERP and accounting software packages. Until now, however, no one has consolidated and packaged these high-level concepts. The layout of this guide specifically addresses the busy nature of a typical executive or project manager. Accordingly, you will find a chapter for each major phase of an accounting software implementation, allowing for quick reference based on the current stage of the project. Each concept is presented as directly and concisely as possible. Once your organization feels a true sense of ownership and responsibility,

you are well on your way to a successful implementation of your new ERP or Accounting software package!

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no

conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
