

The New York Mets Encyclopedia: 3rd Edition

The New York Mets Encyclopedia provides the full and exciting story of modern-era baseball's most popular expansion-age franchise. From those lovable losers of 1962 and 1963, to the Miracle Mets of 1969 and 1973, and on to year-in and year-out contenders of the 1980s and 1990s, New York's National League Mets have written some of the most exciting and colorful pages in Major League history. This is the team that captured the hearts of fans everywhere with its often-laughable antics under colorful and celebrated manager Casey Stengel. Only half a dozen years later, the Mets reached baseball's pinnacle under gifted manager Gil Hodges. This colorful volume combines detailed narrative history with archival photographs, rich statistical data, and intimate portraits of the team's most memorable personalities. This is also a franchise that has been home to many of the game's biggest on-field stars. Among them are such unforgettable diamond characters as reckless slugger Darryl Strawberry; glue-fingered first sacker Keith Hernandez; baseball's all-world catcher, Mike Piazza; pitching ace Johan Santana; and record-breaking third baseman David Wright. The full scope of the Mets fifty-plus-year history is discussed in an expansive chapter that gives the reader a historical detailed overview and features a year-by-year Mets chronology and season-by-season opening-day lineups. This newly revised edition offers insight on everything a Mets fan would want or need to know.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra

segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
