

The Slingshot Syndrome: Why Americas Leading Technology Firms Fail at Innovation

One of the best descriptions and explanations I have read of the failure of large U.S. corporations to develop and exploit new products and services. I particularly liked the description of the failure of the development of the communications industry within the typical corporate structure and [the] analogy of the history of the U.S. product development to the movie industry. I also agree that distribution and management of services can probably only be efficiently performed through large corporations, a direction that appears to be in the process of being taken by companies originally noted for technological development as illustrated. The recommendation that new products can best be incubated in small independent entrepreneurial startups is intriguing. DeWitt Bowman, Chief Investment Officer (retired), California Public Employees Retirement System (CalPERS) This is excellent! I think Reid has it all figured out. The Slingshot Syndrome is easy to read very clear and to-the-point. Revolutionary ideas presented clearly, strongly and simply. A Real winner in my opinion! Terry McPherson, Intellectual Property and Technology Management Director (retired), Lucent Technologies. Ill be among the first purchasers for a dozen or more copies! Susan Gauff, Senior Vice President, Sarnoff Corporation

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

2017-01-22_10-36-17

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

2017-01-22_10-53-02

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

20170122_123405

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

20170122_142807

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
