

Sexual Addiction: Understanding and Treatment: Textbook and Reference Manual

The book *Sexual Addiction: Understanding and Treatment* introduces graduate-level students to the field of sexual addiction. Graduate schools seek a textbook that specifically addresses the dynamics of sex addiction to complete their counseling education curriculum. Some professors have indicated that there is a dearth of targeted instructional content. This book fills that need. As a compendium of Dr. Carnes research related to the treatment of sexually addicted men and women, the book will serve as clinical manual for therapists. Therapists are invited to use the recovery program presented as an effective treatment regimen for sex addicts. Internet pornography addicts men and women who have a weakness for sexual stimulation. One estimate is that as much as half of the male population and a third of the female population are addicted to pornography. The need for a relevant clinical tool is real. As such, the book contains thirty-six therapeutic exercises to help sexually addicted men and women, in conjunction with sex addiction therapy, to achieve long-term sexual sobriety.

Agradable ruta realizada junto al Bilbao Alpino que parte desde la localidad alavesa de Guinea, en la vertiente Sur de la sierra de Arkamo y que discurre por las cimas de Olvedo, Pelistornes y Cantoblanco.

Desde Guinea el camino es muy evidente, ya que las dos primeras cimas están muy cerca y separadas por un pequeño collado. Su subida es corta y casi directa y está señalizada justo a la salida del pueblo.

Al Olvedo se llega relativamente rápido. A pesar de que las nubes a veces nos impiden apreciar las vistas, el paisaje se intuye precioso.

Para pasar del Olvedo al Pelistornes tan sólo tenemos que cruzar el collado y llegaremos en apenas 10 minutos a nuestra segunda cima del día.

Una vez coronadas las cimas anteriores hay que continuar la travesía en dirección a la al Cantoblanco, que se asciende tras un durillo cortafuegos.

Desde la cima tenemos justo en frente el Montemayor, máxima altura de la vecina sierra de Arkamo.2017-01-22_13-00-09

Finalmente, iniciamos el descenso hacia la curiosa localidad de Salinas de Añana...

...donde podremos completar la ruta con una visita a las propias Salinas.

20170122_142812

Una ruta de unos 15 kilómetros sin dificultades reseñables. Únicamente se hace necesaria logística de vehículos. De no tener esta facilidad entonces es mejor realizar únicamente la subida al Olvedo y Pelistornes.

Los Retos de 2017

Publicado el 01/24/2017 por 12meses12montes

Bueno, un nuevo año que ha pasado y uno nuevo que acaba de comenzar. 2016 fue un año muy intenso, si bien los retos que nos marcamos en un principio sólo se vieron cumplidos en una tercera parte. No fue un buen año para ellos, ésta vez la alineación de planetas se generó en pocas ocasiones.

Sin embargo, no decaemos. Cogemos el testigo y no vamos a desistir en su intento, por lo que los retos que no conseguimos cumplir en 2016 serán los que tratemos de realizar en 2017, más algunos otros, a ver qué os parecen. Seguir leyendo
